CHRONOLOGICAL LIST OF LAND GRANTS MADE BY JUAN
B. ALVARADO

During the Alvarado administration 188 land concessions were made. In 1837, the grants numbered 29, in 1838 only three titles were issued and in 1839 there were 44 ranchos granted, this being the largest number of concessions made by Alvarado in any one year. In 1840, 30 petitions were confirmed, 43 titles were issued in 1841, and in 1842 the grantees numbered 39. Jimeno Casarin, Alvarado's secretary, and acting governor during the latter's illness, made 32 of these grants. In 1839, he granted 17 of these ranches, 5 were conceded in 1840, titles were issued for 8 in 1841, and 2 were claimed in 1842.

Material in this list was compiled from the following sources: Notices of claims filed before the United States Land Commission found in the Daily Alta California from 1852 to 1855; Copp's Land Owner; Hoffman, Ogden, Reports of Land Cases Determined in the United States District Court for the Northern District of California; Jimeno's and Hartmell's Indexes of Land Concessions from 1830 to 1846, compiled by Eugene Drake; Report on the Subject of Land Titles in California, made to the United States Government by William Carey Jones; The Report of the State Surveyor General, 1882, and the Expedientes found in the archives of the archives of the Secretary of State, Sacramento, California. Some material was also found in county histories.

In some places the data is incomplete, and when information from the many sources varied the Expedientes were considered the most accurate authority. The names of the ranches and the grantees were spelled in many different ways, but the simplest form was used in this list.

Most of the ranches were usually several leagues or sitios in extent and when the concessions were very small, they were made in varas, a vara equalled 33 inches. A few suertes, or lots, were also granted.
