\$IN PACS I TRUST\$

PAC GROUPS OWN SAM FARR!

Did you know Sam Farr voted for a bill that forgave \$17 MILLION in back taxes owed by Honda Corporation *after* he accepted a PAC contribution from the Japan Business Association of Southern California?

And at the same time Farr supported this retroactive tax break for a foreign corporation **he voted for the single largest retroactive tax increase in U.S. history on American businesses and citizens!**

Sam Farr is a career politician who sells himself like a political prostitute to the special interest PAC groups. He's accepted 2 million dollars from the special interests during his 18 year political career, and he plans to get even more because he's greedy.

Sam Farr is a liar. When he campaigned for Congress he publicly stated he would vote against NAFTA, but when it came time to vote he supported it! Now Sam's saying he's working hard to help our economy, but that's just another lie. Farr has trouble telling the truth because like his friend Bill Clinton, Farr will say whatever it takes to get re-elected. The only job he's worried about saving is his own.
